1. POLICY

NN SS 406 Page 2 of 9

SOP: NN SS 406 Version No: 3.0 Issue Date: 01Mar2024 Effective Date: 15Apr2024

SUSPENSION OR EARLY TERMINATION OF A STUDY OR A CLINICAL SITE

Supersedes Document Version : 2.0

Effective Date: 08Apr2023

This SOP describes policies and procedures for the suspension or early termination of a study or a clinical study site (CSS) that may be necessary under scenarios that include, but are not limited to, the following:

- enrollment at a CSS has not met expectations, and the Data Coordinating Center (DCC) (in consultation with the Protocol Principal Investigator [PPI], the Clinical Coordinating Center [CCC], and/or the NeuroNEXT Protocol Steering Committee [PSC], as applicable) has determined that participation of the CSS in the study should be terminated;
- protocol deviations have occurred that may result in study participants being put at risk of serious injury or that render the study data untrustworthy or invalid;
- monitoring at the CSS has shown continuing or other unacceptable noncompliance (deviations) with the protocol, and the DCC (in consultation with the PPI, the CCC, and the NeuroNEXT PSC) has determined that the CSS must be terminated from participation;
- unreasonable risks posed by the investigation (e.g., serious adverse events) that warrant study termination have become evident;
- by order of the Sponsor, FDA, the single Institutional Review Board (SIRB), the local IRB (if applicable), or upon recommendations from the NeuroNEXT Data and Safety Monitoring Board (DSMB); or
- by request of the CSS.

For any early termination of study participation at a CSS, participant enrollment is discontinued at the terminated CSS, but enrolled study participants will typically complete their specified follow-up visits, depending upon the reason(s) for termination.

For cases in which termination is due to protocol deviations that may result in study participants being put at risk or that may render the study data untrustworthy or invalid, the CSS investigator must cease enrolling participants immediately and report the termination of the study (and reasons) to the SIRB via the CCC, the local IRB, and other appropriate regulatory authorities.

A study closeout visit will be conducted at a terminated CSS according to procedures described in SOP NN SS 405 *Study Closeout Visits*. The closeout visit will not occur until all obtainable enrollment and follow-up visits for study participants at the terminated CSS have been completed. Closeout of study data for that CSS will be implemented according to procedures described in SOP NN PM 507 *Study Closeout*.

In the event that the entire study is terminated early based on recommendations from the NeuroNEXT DSMB or directives from the FDA, the SIRB, or the Sponsor, the procedures described in this SOP and study closeout procedures described in SOPs NN SS 405 and NN PM 507 will be implemented at all CSS.

#### 2. SCOPE

This SOP has been developed to be in alignment with federal regulations and Good Clinical Practices (GCP) as set forth in the 2016 Integrated Addendum to ICH E6(R1): Guideline for Good Clinical Practice E6(R2). The policies and procedures described in this SOP apply to the NeuroNEXT CCC and DCC within the context of their oversight and advisory roles for the NeuroNEXT Network, and to all NeuroNEXT investigators, staff, subcontractors, or other entities associated with the NeuroNEXT Network who manage, oversee, and conduct research regulated by FDA and/or applicable review committees.

#### 3. ROLES AND RESPONSIBILITIES

NN SS 406 Page 3 of 9

SOP: NN SS 406 Version No: 3.0 Issue Date: 01Mar2024 Effective Date: 15Apr2024

SUSPENSION OR EARLY TERMINATION OF A STUDY OR A CLINICAL SITE

Supersedes Document Version : 2.0

Effective Date: 08Apr2023

The Study Team is responsible for following procedures described in this SOP, including:

- monitoring study enrollment at CSS, and identifying sites that are lagging in enrollment;
- ascertaining and implementing measures to improve enrollment at lagging CSS;
- determining if significant protocol deviations are occurring that justify terminating participation of a CSS for serious or ongoing noncompliance;
- escalating any significant findings to the Site Support Team in compliance with the NeuroNEXT Site Intervention and Escalation Plan;
- conducting study closeout visits per SOP NN SS 405 at a CSS that has been terminated from further participation in the study, or at all CSS if the study has been terminated early.

#### 8. SPECIFIC PROCEDURES

Additional acronyms used in this section: DM – Data Management team; IT – Information Technology team; PC – Protocol Coordination team; PM – Project Management team.

#### A. Early Termination of a CSS for Inadequate Enrollment

#	Who	Task	Attachment/ Reference	Related SOP
1.	DCC IT	After receiving notice that participation of a CSS has been terminated for inadequate enrollment, remove the ability for that CSS to enroll additional participants.	NN Site Intervention and Escalation Plan	NN PM 507 NN CS 704
2.	DCC PC, CCC PM	Establish a schedule for conducting a closeout visit when all follow-up on currently-enrolled participants has been completed, if applicable.		NN SS 405
3.	DCC PC, CCC PM	Conduct the closeout visit per SOP NN SS 405.		NN SS 405
4.	DCC PC, CCC PM	Advise the investigator to report the termination of CSS participation in the study to the local IRB and other appropriate regulatory authorities as required, and to submit a copy to the CCC.		NN RA 201 NN PM 501

## B. Suspension of a Study by FDA, the SIRB, the Sponsor, or upon Recommendations from the NeuroNEXT DSMB

#	Who	Task	Attachment	Related SOP
1.	DCC IT	After receiving notice that a study is suspended, remove the ability for all CSS to enroll additional participants through the EDC system.	NN Site Intervention and Escalation Plan	NN CS 704
2.	Study Team, Sponsor	Provide written communication of the decision to suspend the study, and the reason for suspension, to the applicable CSS for submission to the SIRB and/or to local IRB(s) (if applicable).		NN PM 501
3.	DCC PC and CCC PM	Develop and implement an ongoing communication plan with CSS. The plan should include provisions for formal written communications and teleconferences with CSS staff.		
4.	Study Team, Sponsor	Develop and implement a plan for informing any applicable vendors or central facilities (e.g. imaging facility, central pharmacy, or laboratory) that the study has been suspended.		NN GA 105 NN PM 501
5.	PPI and Study Team	If the study was suspended due to concern about the study design, the investigational product, serious AEs, or other study-related concerns, determine whether a modification to the study protocol is required. If a modification is required, follow applicable NeuroNEXT procedures to amend the study protocol.		NN RA 201 NN SM 602

NN SS 406 Page 6 of 9

SOP: NN SS 406 Version No: 3.0 Issue Date: 01Mar2024 Effective Date: 15Apr2024

SUSPENSION OR EARLY TERMINATION OF A STUDY OR A CLINICAL SITE

Supersedes Document Version : 2.0 Effective Date : 08Apr2023

#	Who	Task	Attachment	Related SOP
6.	Study Team	After FDA and/or SIRB (as applicable) approval of an amendment, notify investigator(s) and advise them to notify their local IRB(s) that the study has been amended following the suspension.		NN RA 201
7.	DCC IT	If the suspension of the study is lifted, and upon direction from the PPI or designee, restore the ability for all CSS to enroll participants through the EDC system, and implement the modifications to the protocol (if applicable).		NN CS 704

## C. Early Termination of a Study or a CSS by FDA, an IRB, the Sponsor, or upon Recommendations from the NeuroNEXT DSMB

#	Who	Task	Attachment/ Reference	Related SOP
1.	DCC IT	After receiving notice that a study is terminated at the direction of the Sponsor, FDA, the SIRB, or upon recommendations from the NeuroNEXT DSMB, remove the ability for all CSS to enroll additional participants through the EDC system.	NN Site Intervention and Escalation Plan	
2.	DCC IT	After receiving notice that participation of a CSS in the study is terminated, remove the ability for that CSS to enroll additional participants through the EDC system.		
3.	DCC Lead Coordinator and CCC (if applicable)	<ul> <li>After the study or a CSS is terminated:</li> <li>obtain documentation of the reason for termination in the form of an FDA notification, a Sponsor memo, minutes from the meeting of the NeuroNEXT DSMB or the applicable IRB, or a summary report from the oversight Board;</li> <li>follow up with the Sponsor to ensure that the FDA has been notified, if applicable; and</li> <li>contact the appropriate investigators to ensure that the study is terminated at the CSS, and that the applicable IRB has been notified.</li> </ul>		NN RA 201 NN RA 206
4.	DCC PC and CCC (if applicable)	Develop and implement an ongoing communication plan with the CSS to ensure that all study closeout procedures are implemented and any required regulatory documents are filed. The plan should include provisions for formal written communications and teleconferences with CSS staff.		NN RA 201 NN RA 202 NN RA 203 NN SS 405 NN PM 501 NN PM 505 NN PM 507
5.	Study Team, Sponsor	Develop and implement a plan for informing any applicable vendors or central facilities (e.g. imaging facility central pharmacy or laboratory) of termination of the study or CSS.		NN GA 105 NN PM 501

NN SS 406 Page 7 of 9

SOP: NN SS 406 Version No: 3.0 Issue Date: 01Mar2024

Effective Date: 15Apr2024

SUSPENSION OR EARLY TERMINATION OF A STUDY OR A CLINICAL SITE

Supersedes Document Version : 2.0

Effective Date: 08Apr2023

#	Who	Task	Attachment/ Reference	Related SOP
6.	Study Team, Sponsor	If it is deemed necessary, discuss with FDA, the Sponsor, the NeuroNEXT DSMB, and/or the SIRB the consequences of termination for current participants. If it is decided that participants may be placed at risk by termination of the study, determine the steps that are to be taken to provide the study product, if applicable, to current participants and to monitor their safety.		NN RA 201 NN RA 205 NN RA 206 NN PM 501 NN SM 602
7.	Study Team, Sponsor	If, in consultation with FDA, steps are being considered or have been taken to provide current participants access to the investigational product, advise investigator(s) to notify the SIRB and provide updates as needed.		NN RA 201 NN PM 501 NN SM 602
8.	PPI or designee PPI and/or Sponsor Study Team	<ul> <li>If the study was terminated at a CSS due to investigator noncompliance:</li> <li>advise the CSS PI to notify the local IRB;</li> <li>advise the NeuroNEXT DSMB of the termination during the next scheduled meeting, or sooner if necessary to ensure participant safety or confidentiality;</li> <li>follow up to ensure that the appropriate regulatory authorities have been notified. and follow steps 6 and/or 7 above (if applicable);</li> <li>follow procedures described in SOPs NN SS 405 and NN PM 507 to close out the study at the CSS;</li> <li>if the CSS will be replaced, follow procedures described in SOPs NN SS 401, NN SS 402, and NN RA 201 to initiate the study at a new CSS.</li> </ul>		NN RA 201 NN SS 401 NN SS 402 NN SS 403 NN SS 405 NN PM 501 NN PM 507

#### **D. Communications with Study Participants**

#	Who	Task	Attachment	Related SOP
1.	Study Team	If applicable to a study, provide guidance and work with the Sponsor to develop a plan for communicating information about study results, treatment assignments, and other information thought to be relevant to study participants.		NN PM 501

NN SS 406 Page 8 of 9
